Servisavor®

Lightweight Series of Temporary
Power Restoration Devices

SSR

Benefits:

- The original Servisavor®, now available in a lighter-weight version
- Get your customers' electricity back on in minutes, not days
- Eliminate hassle and liability of temporary above ground cabling
- Find secondary faults on YOUR time, not the cable's time

Description:

The Servisavor® is a highly mobile unit designed to temporarily restore power to customers who have a single faulted conductor. By connecting the Servisavor® between the customers' meter socket and his meter, power can be restored without immediately locating and repairing the cable fault or running temporary above ground conductors.

Model # SS20M-LW-NC (no cart) or SS20M-LW
